

Prefix Equipment Manufacturing

High Throughput, Compact Cocoa Bean Winnower

Model: aBeXO

- *High throughput feed rate--can be run from 1--150lbs/hour
- *Patent pending separation chamber allows for completely tunable airflow for maximum separation efficiency and lowest nib loss
- *Hopper holds 30 lbs crushed cocoa beans
- *Nearly silent, easily adjustable vibratory feed mechanism
- *Extremely compact--11" wide by 27" deep by 30" tall
- *Fits easily on a table top
- *Viewing window for precisely tuning shell separation
- *Includes husk collection bin
- *Easily removable separation chamber converts machine into a standalone vibratory feeder
- *Runs on 15A, 120V 60Hz power source
- *Designed and used by a small batch chocolate maker in a production setting
- *Engineered to last a lifetime--nearly entirely made of heavy duty food grade stainless steel
- *Aesthetically can be a showpiece

Offered at an introductory price of \$4500 plus tax and shipping.
